

Atahan Uz

Istanbul, Turkey ✉ atahanuz23@gmail.com 📞 505 9799479

I was born in Istanbul in 1999. At the end of 4th grade, I ranked first in Turkey in the Fenerbahce College Science Olympiads and won a scholarship. Then I attended Fevziye Mektepleri Erenkoy Isik Science High School.

I was accepted to the ITU Electronics and Communication Engineering. After reevaluating my interests, I transferred to the YTU Computer Engineering, where I am currently in my third year

In 2017 I started a marketplace on eBay to sell online gaming accounts. As a finance enthusiast, I create solutions to automate trading and portfolio management. I released my first app on Google Play “*Easy Stock Data*” to display extensive information on financial markets. I am dedicated to developing superior software and solutions within the field of finance.

Education
